ROCKHILL READY TO LEAVE.

United States Special Commissioner Will
Soon Depart from China.

London, August 14.—Mr. Rockhill, the
United States special commissioner, will
leave Peking in a few days, says a dis-
patch to the Times from the Chinese cap-
ital. The French government, with chat-
acteristic courtesy, has offered the cruiser
Faschal to convey him to Japan, where he
will proceed by steamer.

Texans in New York.

tral.

Example—Dr. John Hill, Astor.

El Paso—Langdon, Astor; K. Blanco,

Imperial.

Palmer—J. F. Finkelman.

Austin—Rev. E. F. Campbell, Sinclair;

G. N. Zimelman, Holland.

A dispatch from Wheeling says that

District Superintendent Carlier has in-

formed the strikers that Bellair will

be sent down until they are hungry,

and that if it were started up again, it

will be run in connection with the

says the men in the National Tube works

at Riverside are the only ones of the

in the Wheeling district who have not gone

out.

Mayor Black's mail today brought him

two peculiar communications. One was a

postal card which read: "You will never

be able to kill me. There is a place for

fool as you." It was signed "A. Striker."

It was mailed at Washington, Pa. The

other communication enclosed an editorial

from a New York paper arranging Mayor

Black on the margin was written: "Go

take a dose of carbolic acid."

Other writers encouraged and still others

discouraged the policy of the mayor.

YET IN THE BALANCE.

Result of Labor-Capital Contest Con-
tinues Uncertain.

THE STRIKERS MADE GAINS

But Not of Sufficient Magnitude to
Be of Special Significance.

TRUST DISMANTLING ITS MILLS.

Where the Employees Go Out and Can Not
Be Supplanted.

BOYS ARE A MATERIAL AID TO STRIKERS

Withdrawal from the Plant of the
National Tube Works at McKees-
port Closed the Mill.

Pittsburg, August 13.—Neither side moved

today in the great industrial conflict be-

tween employers and employees in the

steel trade and the result is still in the

balance. The strikers made gains at Pitts-

burg, McKeesport, Wheeling and Bellair

in the last twenty-four hours, but in the

main the advantage is still with the mill

owners.

Both sides claim to be preparing moves

that will bring confusion to the other, but

neither side has shown its hand.

The general situation tonight can be

briefly summarized as follows:

Ten men, five of them skilled, quit at

the Lower Union mill of the Carnegie com-

pany in Pittsburgh and joined the strikers.

Their defection represented the first break

in the Carnegie forces of more than 15,000

men. The strikers were jubilant, but the

company claims to have filled their places

at once and there will be no more deserta-

tions at any of the plants.

The Bellair plant, which the men

struck on Sunday, was finally closed down

today, working short-handed until yester-

day. Several hundred boys employed at

the National Tube Works at McKeesport

went out during the night and day and

their action materially aided the effort of

the strikers to manly die up the plant.

The works are going ahead short-handed,

but the ranks of the workers are thinning

and the supply of material is limited.

The strikers made gains at Wheeling,

and the steel officials admitted today that

Benwood would be closed down. Clark's

mill here is moving along full handed;

Lindsay and McCutcheon is operating

with a small crew and the managers are

planning to open Painter's mill and in-

crease the force at Lindsay and McCut-

cheon. A break in the ranks of the men

who struck at Painter's is expected, but

the strike managers deny that one will

occur. Another break is reported as pos-

sible at Newcastles, but there are as yet

no positive indications of it.

The American Tin Plate company has a

small force at the Crescent plant in Cleve-

land, and is also planning resumption at

other plants with ammonia men. The steel

corporation today ordered that the Char-

ter's plant at Carnegie be dismantled and

thereby to be working again after the

notice, the strikers did not return to work

at 2 p. m.

The good order has prevailed, al-

though the steel officials assert that there

has been intimidation at Wheeling, Mc-

Keesport and Bellair. The strikers, how-

ever, claim that the strikers are not in-

terfered with and that the strikers are

not in any way being intimidated.

The strikers are considering plans for

breaking the decision of Chicago, Joliet and

Bay View men to stand with the steel

company, but what they plan to do has

been made clear. They are charging

some of the Western men with both dis-

honesty and disloyalty and there is a

general feeling among members of the Amal-

gated association for some investigation.

Crowds of strikers surrounded the

large war and other and the officials

finally called on the police to disperse

them. The officials claim that the

men at the Lower Union mill can be

directly traced to the threats of the

strikers who intercept the men on way to

and from work. They make the same

claim as to Bellair, Wheeling and McKees-

port. They claim that the strikers are

not in any way being intimidated.
